Slovene	X		
Czech	X		
German			X

Language	Word(s) that make the sentences longer in some languages and do not have any equivalent in others
English	an, a
German	einer, dem, ein

Worksheet 3

Try to solve a detective problem. Do you think you will need a magnifying glass? First listen to the Slovene tiny spider.

If I had a house, it would be small, of course - *HIŠICA* or *HIŠKA* (a little house). It would have *okence* (a little window) and *vratca* (a little door).

Can you find two words like this in the Slovene text?

Pikica (small dot), *nožice* (little legs)

In German a “Fenster” is a window and a “Tür” is a door. Can you tell me how to say *okence* and *vratca* in German?

Fensterchen, Türchen
