

<b>IMPEL</b> ELP Implementation Support		<b>Workshop</b> 29-31 March 2007 ECML Graz
--	--	---

## ECML Workshop project IMPEL

### Overall workshop aims

The purpose of this workshop is to familiarise participants with various strategies for implementing the ELP within their own jurisdictions. The workshop will also help participants to establish a network of colleagues for ongoing dialogue after the workshop.

### Specific workshop objectives

The participants will:

- identify individual needs in relation to implementation
- focus on key issues of implementation
- examine examples of implementation, identifying elements of relevance to their own practice
- reflect on their own experiences of implementation
- develop an action plan taking account of their own circumstances
- test the tools developed by IMPEL

### Participants profile

The participants carry (or are preparing to take on) responsibility for the planning, monitoring and/or reporting of ELP implementation projects on an operational level.
